

# AHIMT Training and Education Conference 2008

## “Building Partnerships”

**October 15 & 16, 2008 - DeKalb, IL**

This conference is a unique and rare opportunity for the Incident Management community involved in the All-Hazard Incident Management Team program including Team members, coordinators, and managers, to communicate to DHS personnel the needed support and priorities for NIMS products that support the AHIMT program including Position Task Checklists/Books, training requirements and the credentialing process, the revised ICS forms, grants and funding, deployment standards, and other essential products. The outcome of this Training and Education Conference will be a set of white papers describing the needs, priorities, and systems essential for the continued development of the AHIMT program and local incident management capability.
